DIVISION I—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2016

The following is an explanation of the effects of Division I, which makes appropriations for the Legislative Branch for fiscal year 2016. Unless otherwise noted, reference to the House and Senate reports are to House Report 114-110 and Senate Report 114-64. The language included in these reports should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

Reprogramming Guidelines.—It is expected that all agencies notify the Committees on Appropriations of the House and the Senate of any significant departures from budget plans presented to the Committees in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committees prior to each reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming FTEs or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committees desire to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The agreement includes \$419,621,000 in direct appropriations and authority to spend receipts of \$6,350,000. The amount includes \$1,300,000 to begin the financial management system software upgrade, \$500,000 financial system study, \$4,800,000 for the national collection stewardship program, and \$8,231,000 for the digital collections and education curricula program.

Library Procurement.—In the fiscal year 2013 House Report 112-511 the Committee expressed its concern with the findings in a recently issued Office of Inspector General (OIG) report concerning the Library Wide Acquisition Function. The OIG report contained many findings, some that were reported either in previous OIG audits or memoranda, as far back as ten years, that needed immediate Library management attention. There are concerns about continued weaknesses within the Library's procurement process, as demonstrated when the Committee received a reprogramming request on the next to the last day of fiscal year 2015. These weaknesses threaten the ability of the Library to make timely purchases of necessary goods and services, provide the best value for the taxpayer, and preserve funds for other mission-critical activities.

The Library is directed to follow the recommendations of the Library's OIG and federal agency best practices related to procurement, tracking and prioritizing unobligated balances throughout the fiscal year. Furthermore, the Library is directed to develop and submit any reprogramming requests of such unobligated balances no later than August 1st of each fiscal year.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The agreement includes \$23,098,000 in direct appropriations to the Copyright Office. An

additional \$35,777,000 is made available from receipts for salaries and expenses.

The resources provided are in recognition that the current Copyright system is not serving creators and industry to the standard necessary to promote creative and commercial exchange. With the limited resources available in the Legislative Branch, it is imperative that these additional resources provided in this agreement and in fiscal year 2015 are used in a manner that achieves the universal goal of improving the Nation's Copyright system. In fiscal year 2015, the Committee required an expenditure plan for the use of funds and received two plans for use of funds within two months. The multiple submissions have raised concerns that there is not a comprehensive plan in which to bring the Copyright system into the modern age. House Report 114-110 requires the Register of Copyrights to submit a detailed plan on necessary IT upgrades, a cost estimate for the full modernization effort, and a funding strategy with a time frame for completion. The expectation is that the requirements set forth in House Report 114-110 will formalize a plan that all stakeholders can work from to ensure that funds are being used effectively.

In addition, the appropriated dollars above fiscal year 2015, \$2,300,000, is not available for obligation until the Committees receive the IT plans and cost estimates required in House Report 114-110. After submission of the IT plan and cost estimate, the Register is directed to provide quarterly reports on its expenditure of funds and milestones achieved to implement the IT upgrades to modernize the Copyright system.

OPEN WORLD LEADERSHIP CENTER TRUST
FUND

The agreement includes \$5,600,000 for payment to the Open World Leadership Center Trust Fund.

The Congress appreciates the role that the Open World Leadership Center has played in linking Members of the House and Senate to rising legislative and civic leaders in countries critical to American interest. However, the Congress believes that the Centers' mission and role should be directly relevant to the role of the legislative branch of Congress. As such, the Center's board of trustees is directed to provide the relevant authorization and appropriations committees with a

report on how the Center can serve the Congress in a more effective and relevant manner.

This report shall: 1) provide a strategic plan for the Center's efforts to enhance engagement and cooperation between the Congress and legislatures abroad; 2) provide an analysis on how the Center could support and collaborate with other legislative branch agencies such as the House Office of Inter-parliamentary Affairs and the House Democracy Partnership; and 3) propose any statutory changes required for the Center to focus its mission on supporting Congressional engagement with legislatures in emerging democracies abroad. The report is to be pro-

2016 (Public Law 114-53)

DIVISION J—MILITARY CONSTRUCTION, VETERANS AFFAIRS, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

The following is an explanation of the effects of Division J, which makes appropriations for Military Construction, Veterans Affairs, and Related Agencies for fiscal year 2016. Unless otherwise noted, reference to the House and Senate reports are to House Report 114-92 and Senate Report 114-57. The language set forth in House Report 114-92 and Senate Report 114-57 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. In cases in which the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress. House or Senate reporting requirements with deadlines prior to, or within 15 days after, enactment of this Act shall be submitted not later than 60 days after enactment of this Act. All other reporting deadlines not specifically directed by this explanatory statement are to be met.

Construction Contracting Outreach.—Department of Defense (DOD) and Department of Veterans Affairs (VA) construction projects funded in this Act are, in general, executed by the U.S. Army Corps of Engineers, the Naval Facilities Command, and the VA Office of Construction. Effective communication between Federal procurement officials and the construction industry is essential to improve opportunities for local contractors to compete for local DOD and VA construction projects. But despite the efforts of the Office of Federal Procurement Policy to increase communication between procurement officers and industry, local contractors continue to report that they often do not know about nor have the opportunity to compete for contracts for federally funded construction projects. Therefore, the Secretaries of the Army and the Navy, and the Secretary of Veterans Affairs are directed to ensure that their respective regional/district offices responsible for construction projects inform and engage local construction industry contractors, especially small businesses, minority-owned businesses, and women-owned businesses, about Federal procurement opportunities and the bidding process. Each Secretary is further directed to provide to the Committees on Appropriations of both Houses of Congress (“the Committees”) not later than 90 days after enactment of this Act a comprehensive outreach plan for regional and district offices that includes targeted outreach, Web-based technologies, social media and other proactive strategies to reach a broader group of local contractors.

TITLE I

DEPARTMENT OF DEFENSE

Bid Savings.—It has been ascertained from cost variation notices required by 10 U.S.C. 2853 that the Department of Defense continues to have bid savings on previously appropriated military construction projects. Therefore, the agreement includes rescissions to the Army, Air Force, and Defense-Wide construction accounts. The Secretary of Defense is directed to continue to submit 1002 reports on military construction bid savings at the end of each fiscal quarter to the Committees.

The Secretary of Defense is further directed to assess the backlog of projects iden-

tified by the services and the defense agencies and report the expected costs and timeline for completion of the backlog to the congressional defense committees not later than 90 days after enactment of this Act.

Pacific Realignment.—U.S. economic and security interests are inextricably linked to developments in the arc extending from the Western Pacific and East Asia into the Indian Ocean and South Asia, creating a mix of evolving challenges and opportunities. The Department of Defense has stated that it would tailor its global presence and posture by rebalancing toward the Asia-Pacific region, emphasizing existing alliances and expanding networks of cooperation with emerging partners throughout the region to ensure collective capability and capacity for securing common interests. As part of this rebalance, the U.S. Pacific Command currently has programmed \$775,000,000 over the next five years for military construction in the region.

Approximately 39,000 U.S. military personnel, 43,000 dependents, and 5,000 DOD civilian employees are currently stationed on Japan, and the majority of this presence resides in Okinawa. Okinawa hosts over 25 percent of the U.S. bases in Japan, and Okinawa's bases house approximately 8,000 Air Force personnel and up to 19,000 Marine Corps personnel on any given day. Attempts to realign, consolidate, and increase the sustainability of this presence have been ongoing for nearly two decades. Early plans were to move approximately 8,000 Marines and 9,000 dependents from Okinawa to Guam; however, in 2012 representatives from the U.S. and Japanese governments announced a revised plan that would relocate over 9,000 Marines from Okinawa and realign Marine forces throughout the Pacific: 4,800 to Guam, 2,700 to Hawaii, and 2,500 rotational troops to Australia.

The U.S. Government Accountability Office (GAO) has been reporting on Asia Posture plans and costs since 2011. Based on GAO's reports, it is not clear if sufficient existing military infrastructure is available in any of the receiving locations to support the relocation or if DOD has developed adequate cost estimates of infrastructure development that will be needed to ensure mission capability. In addition, the U.S. Government is still negotiating certain Host Nation and land use agreements that are key to executing the construction plan.

As a result, The Comptroller General of the United States is directed to conduct a study and report the results of the study to the congressional defense committees by February 1, 2017. At a minimum, The Comptroller General's study should address the status of progress being made on the various realignment initiatives, the costs associated with these plans, whether any alternatives to this plan are being considered, and should answer the following questions:

(1) What is the status of the realignment initiatives, have alternatives been considered, and to what extent has DOD identified a plan that lays out the appropriate sequencing of projects supporting the realignment of Marines and the interdependent projects on Okinawa, including associated time frames and costs for the projects?

(2) Can the Okinawa realignment timeframe be accelerated?

(3) What is the status of development of DOD's master plan to support the relocation of Marines to Guam?

(4) To what extent does sufficient, usable excess capacity exist on bases in Hawaii to support the Marines' relocation there?

(5) To what extent do sufficient facilities in Australia exist to support the planned force rotations there?

(6) What estimated costs has DOD identified it will need to develop new, or redevelop existing, infrastructure in Guam, Hawaii, Australia, or other locations it may be considering for the realignment?

(7) What is the status of relevant Host Nation and land use agreements required to execute the plan? Which agreements are most likely to be challenged in court and result in further delays to the plan?

(8) Are there any suitable locations other than the Futenma Relocation Facility on or near the island of Okinawa to host Marine Corps aviation assets? If so, would there be any efficiencies or cost savings associated with a different location?

Missile Defense.—Rapid implementation of the European Phased Adaptive Approach remains a high priority. The first Aegis Ashore missile defense site in Deveselu, Romania, is expected to be fully operational by the end of 2015. Construction in Romania has not been without difficulty, including delays and additional costs associated with the high-altitude electromagnetic pulse shields. This agreement fully funds the request to build the second Aegis Ashore site in Redzikowo, Poland, and the Missile Defense Agency (MDA) is expected to apply the lessons learned from construction in Romania to expedite the project in Poland. As Iranian ballistic missiles become increasingly advanced, the activation of the Aegis Ashore sites is essential to the protection of U.S. and allied interests in Eastern and Central Europe. The European Reassurance Initiative has increased the number of U.S. and NATO rotational forces in Europe, and the MDA is directed to accelerate activation of the Aegis Ashore systems wherever possible.

Expansion of U.S. Africa Command Operations in Africa.—Increased activity by violent extremist groups in Africa, including the November 20, 2015, terrorist attack in Mali which claimed the lives of 20 victims, including one American, underscores the growing importance of the anti-terrorism mission of the U.S. Africa Command (AFRICOM) on the continent. As a result, AFRICOM has steadily increased its intelligence, surveillance, and reconnaissance operations and its network of contingency and Cooperative Security Locations (CSLs) for the temporary staging of crisis response forces. These contingency locations include an airbase in Niger, for which \$50,000,000 is provided in this Act for infrastructure and airfield improvements, and an expeditionary post in Cameroon to accommodate the recently announced deployment of up to 300 U.S. military personnel to aid in the fight against Boko Haram and other terrorist organizations in West Africa. U.S. forces generally rely on existing Host Nation infrastructure to support their operations, but as with the Niger base, Department of Defense funding may be required for infrastructure improvements to accommodate U.S. personnel and operations. CSLs and expeditionary bases represent an expedient and cost-effective means for U.S. forces to support African national efforts to combat terrorism and to protect U.S. security interests, but it is important for the Department to ensure that any required infrastructure improvements at these locations are undertaken within appropriate congressional funding authorities. The Department is therefore directed to provide to the Committees quarterly reports, beginning after the first quarter of fiscal year 2016, on any infrastructure

investment required to support U.S. forces and operations at CSLs or other expeditionary bases in Africa, the funding source for these investments, and the justification for using Operation and Maintenance or other DOD funding sources versus Military Construction authorities to fund these investments. These reports shall be provided in the appropriate classified and unclassified formats.

MILITARY CONSTRUCTION, ARMY

The agreement provides \$663,245,000 for Military Construction, Army. Within this amount, the agreement provides \$109,245,000 for study, planning, design, architect and engineer services, and host nation support.

Instruction Building.—The agreement does not include funding for the Instruction Building located at Joint Base Myer-Henderson Hall. There is concern that the initial design of this facility failed to incorporate the Fife and Drum Corps needs. As a result, formal design on this project did not start due to concerns regarding the scope of this project. While concerns remain, the replacement facility is necessary due to the current condition of the existing facility. Therefore, the Secretary of the Army is directed to take the necessary steps to create a concept plan that meets the needs of both the Army Band and the Fife and Drum Corps at one site. This plan shall be submitted to the congressional defense committees not later than 120 days after enactment of this Act.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$1,669,239,000 for Military Construction, Navy and Marine Corps. Within this amount, the agreement provides \$91,649,000 for study, planning, design, architect and engineer services.

Live-Fire Training Range Complex (NW Field).—The agreement fully supports the efforts of the Marine Corps to establish the appropriate training ranges on Guam in support of the movement of Marines from Okinawa. However, there is concern that the projected cost of the supporting facilities for the live-fire training ranges, in general, tend to be considerably higher in cost than the range itself. Therefore, the Secretary of the Navy is directed to submit a report to the congressional defense committees not later than 90 days after enactment of this Act detailing how support facilities are determined for each range.

Townsend Bombing Range.—The agreement includes full funding for the construction of the Townsend Bombing Range Expansion, Phase 2. However, there are concerns that the Navy has failed to consider the impact that the range expansion would have on the local timber economy and therefore funding of this project is fenced until an agreement between all stakeholders can be met.

MILITARY CONSTRUCTION, AIR FORCE

The agreement provides \$1,389,185,000 for Military Construction, Air Force. Within this amount, the agreement provides \$89,164,000 for study, planning, design, architect and engineer services.

Lajes Field, Azores.—The agreement does not contain House section 130 due to the inclusion of Section 2310 of P.L. 114-92, the National Defense Authorization Act for Fiscal Year 2016 which addresses potential operations at Lajes Field as well as the Joint Intelligence Analysis Center. Section 2310 requires the Secretary of Defense to submit a determination of the operational viability of use for Lajes Field by March 1, 2016. Additionally, Section 2310 prohibits obligation of the fiscal year 2016 funds for the Joint Intel-

ligence Analysis Center, phase II pending a certification by the Secretary of Defense of the optimal location for the Joint Intelligence Analysis Center to the congressional defense committees.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,242,867,000 for Military Construction, Defense-Wide. Within this amount, the agreement provides \$175,404,000 for study, planning, design, architect and engineer services. Within this amount, an additional \$15,000,000 is provided for the Missile Defense Agency planning and design account. The additional funding is to expedite the construction and deployment of urgently needed missile defense assets in various locations within the Continental United States, including Alaska and Hawaii.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The agreement provides \$197,237,000 for Military Construction, Army National Guard. Within this amount, the agreement provides \$20,337,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The agreement provides \$138,738,000 for Military Construction, Air National Guard. Within this amount, the agreement provides \$5,104,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, ARMY RESERVE

The agreement provides \$113,595,000 for Military Construction, Army Reserve. Within this amount, the agreement provides \$9,318,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, NAVY RESERVE

The agreement provides \$36,078,000 for Military Construction, Navy Reserve. Within this amount, the agreement provides \$2,208,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

The agreement provides \$65,021,000 for Military Construction, Air Force Reserve. Within this amount, the agreement provides \$13,400,000 for study, planning, design, architect and engineer services.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

The agreement provides \$135,000,000 for the North Atlantic Treaty Organization Security Investment Program which is \$15,000,000 above the budget request. The additional funding will support responses to the challenges posed by Russia and to the risks and threats emanating from the Middle East and North Africa.

FAMILY HOUSING OVERVIEW

Homeowners Assistance Program—Delayed Expression or Delayed Identification of Injured Beneficiaries.—As the Executive Agent for the Homeowners Assistance Program (HAP) across the Department of Defense, the Army mistakenly administered approximately 76 applicants whose injuries were incurred during a military deployment, while they owned a home, and experienced delayed expression or delayed identification of the injury. The applicants were paid in good faith and in accordance with guidance from Congress and the Department of Defense to err in favor of

wounded, ill, and injured HAP applicants. If these beneficiaries had suffered from an obvious physical injury—which the HAP statute envisioned—their injury would have been clearly documented at the time they owned their home, and they would have qualified for HAP benefits. Therefore, no funds from this Act shall be used to collect overpayments for any wounded, ill, or injured HAP beneficiary with delayed expression or delayed identification, or send notice letters, while the Department further develops permanent legislative solutions with Congress.

FAMILY HOUSING CONSTRUCTION, ARMY

The agreement provides \$108,695,000 for Family Housing Construction, Army. This is an increase of \$9,000,000 above the budget request.

Army Family Housing Construction Increase.—The agreement includes a \$9,000,000 increase to the family housing construction project located at Rock Island Arsenal, at the request of the Army. The increase is required because bids the Army received for a corresponding fiscal year 2015 project were 139 percent of the programmed amount, and the Army subsequently revised its cost estimate for the fiscal year 2016 project to reflect this bid climate. The source of the additional funding is from a rebalancing of the Army Family Housing, Operation and Maintenance account to reflect updated estimates. Both the construction project cost increase, and the corresponding rebalancing of the Army Family Housing, Operation and Maintenance account are consistent with the National Defense Authorization Act for Fiscal Year 2016.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The agreement provides \$375,611,000 for Family Housing Operation and Maintenance, Army. This is a decrease of \$17,900,000 below the budget request and reflects the Army's updated estimates for this account.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$16,541,000 for Family Housing Construction, Navy and Marine Corps.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND MARINE CORPS

The agreement provides \$353,036,000 for Family Housing Operation and Maintenance, Navy and Marine Corps.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

The agreement provides \$160,498,000 for Family Housing Construction, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The agreement provides \$331,232,000 for Family Housing Operation and Maintenance, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The agreement provides \$58,668,000 for Family Housing Operation and Maintenance, Defense-Wide.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT

The agreement provides \$266,334,000 for the Department of Defense Base Closure Account, which is \$15,000,000 above the request. The additional funding is for the Army and the Navy to accelerate environmental remediation at installations closed under previous Base Closure and Realignment rounds.

Infrastructure Inventory and Assessment of Infrastructure Necessary to Support Ongoing

Defense Activities.—Language in House Report 114-92 requiring the Secretary of Defense to conduct an inventory and assessment of infrastructure necessary to support ongoing Defense activities is modified to conform to a similar requirement in Sec. 2815 of P.L. 114-92, the National Defense Authorization Act for Fiscal Year 2016.

Choice Program.—The Choice program, created in the Veterans Access, Choice, and Accountability Act (VACAA) of 2014, was designed to provide needed care outside the VA system for veterans who lived far from VA medical facilities or who were unable to re-

ceive an appointment within a reasonable time period at a VA clinic or hospital. VACAA included \$15,000,000,000 in emergency, mandatory funding to finance the new program as well as investments in building VA capacity. The first year of the program was fraught with uncertainty. Usage of the Choice program was well below expectations. Yet, the information about the existence of the program generated demand for the existing VA program that was well beyond projections or capacity. The resulting strain on care provided through VA appropriated funds reached a crisis level last August when Congress was forced to transfer Choice program funding to the discretionary accounts to keep VA hospitals operating. That crisis generated the requirement from Congress that VA develop a comprehensive plan to restructure the Choice program and consolidate it with the myriad other non-VA care programs operated by the Department. As this new plan is developed and implemented by Congress, great uncertainty still exists about the demand for traditional VA care versus care provided by outside entities but funded by VA. The funding provided through VACAA will be exhausted sometime in fiscal year 2016 or 2017, creating unprecedented demands on the discretionary account. The Department is directed to provide to the Committees its cost projections for Medical Care for fiscal year 2016 and 2017 not later than 60 days after enactment of this Act and every subsequent quarter thereafter. In the absence of reasonable projections of usage of VA care, the agreement provides a total of nearly \$2,500,000,000 for fiscal year 2016 Medical Care in addition to the \$58,662,202,000 provided in advance last year. The bill provides the original advance funding request for fiscal year 2017 of \$63,271,000,000, with the expectation that the Department will submit a request for additional funding in the 2017 budget.

Given that there may be significant unfunded liabilities created by VACAA, the agreement includes bill language permitting the transfer of funding from multiple VA appropriations accounts to Medical Services to address unfunded needs.

Expansions of the Choice Program.—Subsequent eligibility expansions of the Choice program by VA and by legislation have been welcome developments. These expansions, particularly those regarding environmental factors, have opened the aperture for the Choice program and will allow more veterans to utilize non-VA care options. The Department is encouraged to implement these eligibility changes to the Choice program in an expedited manner and to consider including travel time and total distance to a VA medical facility, which can address the veteran's specific healthcare needs, when determining eligibility for the Choice program.

Evaluation of the Implementation of the Choice Act.—GAO is directed to submit to the Committees a report evaluating the implementation by the Department of section 101 of VACAA, as described in Senate bill section 250.

Interim Results Regarding Changes to Access to Care for Veterans.—VA is directed to submit a report to the Committees not later than February 1, 2016, detailing the changes in the delivery of care to Alaskan veterans subsequent to passage of the Choice Act, as described in the Senate bill section 251.

Impact of the Choice Program on Rural Areas.—The Department is instructed to submit a report to the Committees not later than 180 days after enactment of this Act on the implementation of the Choice Act in

rural areas, as described in Senate bill section 254.

Oversight of VA Patient Access to Care.—To ensure that the Veterans Health Administration's Veterans Integrated Service Networks (VISNs) are complying with all legal and policy standards with respect to veterans' timely access to medical care, the agreement directs GAO to conduct a random audit of at least three VISNs, and, to the extent practical, three individual medical facilities within those VISNs. The audit should assess whether the VISNs and facilities have assurance programs in place to confirm compliance with all standards imposed under law or any policy guidance issued by the Department regarding access to hospital care, or other healthcare provided by the Veterans Health Administration, or provided through a contractual agreement with a non-VA provider.

Despite the Department's efforts to decrease patient wait times, progress is uneven, and distressing reports abound from certain areas of the country about veterans' inability to get timely care. To better understand why these geographic services gaps exist, the Department is directed to submit a report to the Committees not later than 90 days after enactment of this Act, with respect to the South Texas Veterans Health Care System, the Central Alabama Veterans Health Care System, the North Florida/South Georgia Veterans Health System, the Gulf Coast Veterans Health Care System, and the VA Montana Health Care System, including: (1) a description of the current baseline and the nature and scope of any foreseeable increase in wait times for medical appointments; (2) an assessment of whether a shortage of healthcare providers is the primary cause of any such increase in wait times; (3) an identification of any other causes of an increase in wait times; (4) a description of any action taken by the Department to correct any such increase in wait times; (5) an assessment of any issues relating to access to care; and (6) a plan for how the Secretary will remedy any such increase in wait times, including a detailed description of steps to be taken and a timeline for completion.

Curing Hepatitis C within the Veteran Population.—The Department is to be commended for robustly treating veterans with Hepatitis C (HCV), which is a particular concern because the veteran population is twice as likely to have the virus as the general population. VA has developed a Hepatitis C projection model, which is able to project both the prevalence of HCV infections within the enrolled veteran population and the number of treatments needed from 2014 through 2023. Available HCV drugs have a cure rate of 96 percent, and early, preventative treatments avoid tens of thousands of dollars in future spending on transplants and chemotherapy. To that end, the agreement includes bill language funding the treatment of Hepatitis C within the VA system at no less than \$1,500,000,000 in fiscal year 2016, which is \$810,000,000 above the President's request.

To assist in congressional oversight, VA is directed to report to the Committees in quarterly briefings the number of veterans treated to date, the number of veterans treated each week, the number of veterans pronounced cured to date, the projected number of new cases, and the estimate of veterans likely to be cured during the next quarter. In addition, VA should indicate in a report sent to the Committees not later than 90 days after enactment of this Act the Department's volume capacity for treatment

and the Department's strategic plan for addressing the veteran Hepatitis C caseload over the next five years. VA is also directed to report quarterly to the Committees obligations for funding Hepatitis C treatments as part of the larger crosscutting VA quarterly financial report required in section 219.

Caregivers.—The agreement provides \$605,000,000 for the Caregiver Program, which is \$50,000,000 above the budget request. The funding will support stipends paid directly to family caregivers of post-9/11 veterans seriously injured in the line of duty, as well as the national caregiver support line and increased support for caregiver support coordinators.

Vet Centers.—The agreement provides \$258,000,000 for readjustment counseling at Vet Centers, which is \$15,000,000 above the budget request. The increased funds are to be used for Vet Centers, including mobile Vet Centers, to address the unmet mental health needs of veterans in rural and highly rural areas.

Rural Healthcare.—The agreement includes \$270,000,000 for the Office of Rural Health. This funding continues the Rural Health Initiative established by Congress in fiscal year 2009 to ensure that VA dedicates sufficient resources to reach veterans residing in rural and highly rural areas who do not have immediate access to a veterans medical center or community-based outpatient clinic. VA is strongly encouraged to continue to improve the accessibility, efficiency, and effectiveness of care for rural veterans. Section 211 of the bill permits the transfer of up to \$20,000,000 from the Office of Rural Health to the Grants to States for Construction of Extended Care Facilities in order to ensure the needs of rural and highly rural areas are taken into account in the allocation of these construction funds.

Ending Veteran Homelessness.—The most recent "Point in Time Count" prepared by the Department of Housing and Urban Development estimates the overall national number of homeless veterans in January 2015 was 47,725, down 35 percent since 2009. It is expected that this reduction will continue and will be reflected in next year's "Point in Time Count". Congress has provided more than \$7,200,000,000 for homeless program activities during this time period to support the Department's efforts. The Department is to be commended for the continued reduction in homelessness among veterans, but there is concern that its Agency Priority Goal of ending homelessness in 2015 may not be realized. The goal is important, and the Department is directed to continue prioritizing resources and efforts to end veterans homelessness. Therefore, the agreement provides the full fiscal year 2016 and 2017 budget requests for VA homelessness assistance programs and homeless veteran treatment costs. The agreement directs the Department to fund the Supportive Services for Veteran Families and the Grant and Per Diem Program at the fully authorized level.

Concern remains about the Department's efforts to combat homelessness among female veterans and female veterans with minor children. The agreement directs VA to report the actions it is taking to reduce homelessness among this population, as directed in the House report.

The Secretary is directed to assess the feasibility and advisability of conducting a pilot program to award grants to veterans service agencies, Veteran Service Organizations (VSOs), and nongovernmental organizations to provide furniture, household items, and other assistance to formerly

homeless veterans who have transitioned to permanent housing.

Mental Health.—The agreement provides the full budget request for all VA mental health services and programs, which totals \$7,455,017,000 in fiscal year 2016 and \$7,715,357,000 in fiscal year 2017. Within these amounts, the agreement emphasizes the importance of investing in programs addressing post-traumatic stress, traumatic brain injury, and suicide prevention.

The Department is encouraged to seek out public-private partnerships, particularly with research universities, those with and without medical schools, to expand its efforts related to suicide prevention, post-traumatic stress disorder, traumatic brain injury, and substance abuse disorders.

The Department is urged to implement a program that would designate a VA liaison to work with local law enforcement to ensure that the subsequent needs of veterans who are considered an immediate threat to themselves and others are addressed.

The Department is urged to strengthen its relationships with the VSOs that are working closely with veterans suffering mental health issues.

VA must be better poised to identify veterans suffering from combat-related mental health issues and pinpoint those at risk of committing suicide. In an effort to assist this effort, the Department is encouraged, after consultation with the Secretary of Defense, to enter into a contract with an independent third party to carry out a study on the impact combat service has had on suicide rates and serious mental health issues among veterans. To the extent practical, the study should compare the rate and method of suicides among those veterans who have sought and received care from the Veterans Health Administration, and those who have not. The Secretary should report to the Committees not later than 30 days after enactment of this Act regarding the feasibility of such a study.

There is concern that the Department is reluctant to permit the hiring of mental health counselors and marriage and family therapists who meet all educational, licensing, and examination requirements to practice in their States, but whose degree is from an institution not accredited by the particular organizations VA recognizes. The Department is urged to pilot the hiring of therapists who meet all the requirements to practice in their States and report to the Committees not later than 180 days after enactment of this Act about its hiring plans for this group of practitioners.

The agreement includes \$19,000,000 for the National Centers for Post-Traumatic Stress Disorder, as outlined in the budget request.

Women Veterans.—VA must make better progress in addressing the needs of women veterans. Toward this end, the agreement fully funds gender-specific healthcare for both fiscal year 2016 and fiscal year 2017. Access to, and utilization of, VA benefits and services by women veterans remain low, with women often encountering cultural roadblocks in a system that was largely designed to meet the needs of male veterans. Therefore, the Department is directed to ensure that providers within VA who interact with women veterans in a clinical setting are trained to treat and address the unique health issues facing women veterans. Moreover, the agreement directs the Secretary to conduct an internal analysis to ensure that each VISN is integrating the unique needs of female veterans into each component of the healthcare system. VA is directed to submit

this analysis to the Committees not later than 180 days after enactment of this Act.

In an effort to leverage VA's existing local community partnerships, VA should establish support networks for women veterans to assist in accessing healthcare, employment services, financial counseling, and housing. Furthermore, the Department is directed to maximize the availability of mental health services available to veterans who were victims of military sexual trauma and shall report to the Committees semi-annually on these efforts. The agreement also directs VA to continue the Women Veterans Call Center.

Opioid Safety.—To respond to the urgency of the opioid overdose epidemic, the Department is directed to follow the guidance from the Senate report in the following areas: (1) adoption of the safe opioid prescribing practices for chronic, non-cancer pain in outpatient settings developed by the Centers for Disease Control and Prevention; (2) development of mechanisms for including real-time patient information on existing opioid prescriptions within VA as well as information in the State Prescription Drug Monitoring Program; (3) establishment, in consultation with DOD, within the DOD-VA Joint Executive Council of a working group focused on patient pain management and opioid therapy; and (4) provision of the necessary equipment and supplies to make certain that all VA medical facilities are equipped with approved opioid receptor antagonists. Additionally, the Department is directed to report to the Committees not later than 90 days after enactment of this Act on alternative treatments to prescribing opioids, which may include an evidence-based analysis as to which complementary and integrative health therapies may be effective for the treatment of pain, as well as how VA can better facilitate the use of safe and effective complementary and integrative health therapies for pain management. VA is also instructed to comply with the Executive Memorandum issued by the President on October 21, 2015, requiring Federal agencies to provide training on prescribing opioids to Federal healthcare professionals who prescribe controlled substances as part of their Federal responsibilities. The Department should report to the Committees not later than 90 days after enactment of this Act the type of training it intends to provide, the number and position of recipients of the training, and the time frame for providing the training. Lastly, GAO, as directed in the Senate report, should report to the Committees on the effectiveness of the VA Opioid Safety Initiative.

Consolidated Mail Order Pharmacy.—VA Consolidated Mail Order Pharmacy (CMOP) ranked highest among mail order pharmacies for customer satisfaction in J.D. Power and Associates 2014 National Pharmacy Study. This marked the fifth consecutive year CMOP scored highest in this survey. Notwithstanding past success, the program, which has been recompeted, is now the subject of an Office of Inspector General (OIG) audit. OIG is directed to keep the Committees apprised of the ongoing and final results of the audit. The Department is directed to submit a report to the Committees not later than 30 days after the OIG audit results are published detailing a timeline for implementation of any recommendations which may arise as a result of the OIG audit.

Recruitment and Retention of Healthcare Providers.—GAO is directed to submit to the Committees a report on the recruitment and retention of healthcare providers by the Department, as described in Senate bill section 253.

Locum Tenens Physicians.—The Committees had expressed concern earlier this year about Drug Enforcement Administration (DEA) regulations that denied VA locum tenens physicians prescribing privileges unless they had a license in the State of practice, even though VA policy permits them to practice in any VA facility as long as they have a license in at least one State. It is understood that the DEA has modified its policies and has granted waivers to VA locum tenens physicians, alleviating a problem that would have created physician shortages in some VA facilities.

Medical Residency Positions.—VACAA directed the Department to increase the number of graduate medical education residency positions by 1,500 over a five year period. On September 17, 2014, VA's Office of Academic Affiliations issued a Request for Proposals to VA healthcare facilities and received significant interest in the residency positions. As a result, the Interim Under Secretary for Health approved the allocation of 200 residency positions. By July 2015, 163 of the allocated positions had been filled. VA's residency program depends on close coordination with program sponsors and coordination with the Department of Health and Human Services (HHS) Centers for Medicare and Medicaid Services. To better understand limitations within the program and to better leverage VA's graduate medical education residency program, the agreement directs the Secretary, in consultation with the Secretary of HHS, to provide a report to the Committees not later than 90 days after enactment of this Act, which details current coordination with the Direct Graduate Medical Education Program, limitations that may restrict VA's program and ability to expand to underserved areas, and a plan to more effectively carry out VA's graduate medical education program within constraints that exist in the Direct Graduate Medical Education program.

Antimicrobial Resistance.—The Department is directed to carry out antimicrobial stewardship programs in accordance with VHA Directive 1031, as described in the House and Senate reports.

Pain Management Boards.—The Department is directed to report on the feasibility of establishing Pain Management Boards within each VISN, as described in the Senate report.

Transportation Pilot Program.—To take advantage of innovations in on-demand transportation made possible through mobile application technology, the Department is encouraged to conduct a pilot program of this method as a means for transporting veterans to VA facilities and private providers. The pilot program would use transportation network companies to transport veterans for medical care in at least three metropolitan areas in three different VISNs. The pilot would take advantage of existing flexibility in current Federal procurement law, including 41 U.S.C. 1902, to enable transportation network companies to fully participate in the pilot program in a manner consistent with their standard business model. Each trip would be considered a unique transaction for the purposes of compliance with micro-purchase procedures. The Secretary shall evaluate the effectiveness of the pilot

and determine: (1) how transportation network companies can meet gaps in transportation services; (2) the extent to which veterans' transportation needs are being met in a cost-effective manner; and (3) satisfaction from veterans with the quality of the transportation service and ease of use.

Nurse Call Center.—The Secretary is directed to assess the feasibility and advisability of implementing a nurse advice line, including in rural areas and highly rural areas with a large percentage of veterans, to furnish to veterans medical advice, appointment and cancellation services, and information on the availability of benefits from VA. The pilot should be based on and improve upon the nurse advice line implemented by DOD for beneficiaries under the TRICARE program.

MEDICAL SUPPORT AND COMPLIANCE

The agreement provides \$6,524,000,000 in advance for fiscal year 2017 for Medical Support and Compliance and makes \$100,000,000 of the advance funding available through fiscal year 2018.

MEDICAL FACILITIES

The agreement provides \$5,074,000,000 in advance for fiscal year 2017 for Medical Facilities, as well as \$105,132,000 in fiscal year 2016 funding, which is in addition to the advance funding provided last year. Of the advance funding, \$250,000,000 is made available through fiscal year 2018.

Joint Healthcare Facilities.—The Department and DOD have developed an innovative approach to delivering healthcare by developing a combined VA/DOD clinic, from the ground-up with compatibility and integration by design. The agreement encourages the further development and utilization of innovative ideas that combine duplicative efforts and restrain redundant costs while also better serving active duty personnel, their families, retirees, and the veteran community. The agreement recognizes the need for such integrated facilities and supports the underlying mission of these joint ventures. As noted, both Departments consider these collaborations to be the future in providing medical services for both communities. Understanding the subsequent complications that may arise during integration efforts between these Departments, the agreement encourages both VA and DOD to provide innovative solutions to overcome these challenges. The agreement further recognizes that in the instance of clinics currently under construction, there are possible cost and schedule overruns due to interagency funding disputes. Therefore, the Department and DOD are directed to resolve these issues to preserve the existing delivery timeline of these clinics and report to the Committees any outstanding issues related to joint VA/DOD clinics not later than 30 days after enactment of this Act.

Community-Based Outpatient Clinic Site Selection and Construction.—Concerns continue to be raised about the Department's oversight and management of the community-based outpatient clinic (CBOC) site selection and construction process. The current VA process does not always provide due consideration of the interests of the patients who are to be served by these facilities, as evi-

denced by sites which are selected that are located outside areas where the majority of local veterans live or sites without proximity to public transportation. Additionally, there is concern regarding VA's use of multi-phase construction, which can result in unnecessary delays and added construction costs, in addition to separate facilities for services that could be delivered more effectively at one site. Several planned CBOCs, such as facilities in Lorain, Ohio; Columbus, Georgia; and Rochester, New York, face these problems. VA must dramatically improve its long term planning for CBOC site selection and construction to avoid costly mistakes and ensure veterans' needs are fully considered and are made a priority in the overall process. The Department is directed to review the current CBOC planning process, particularly project design, site selection, and cost effectiveness evaluations, and to develop a plan to improve veteran access. VA should report on the status of each planned CBOC nationwide not later than 30 days after enactment of this Act.

MEDICAL AND PROSTHETIC RESEARCH

The agreement provides \$630,735,000 for Medical and Prosthetic Research, available until September 30, 2017. Bill language is included to ensure that the Secretary allocates adequate funding for research on gender appropriate prosthetics and toxic exposures.

Colorectal Cancer.—Given that colorectal cancer is the second leading cause of cancer death in the U.S. and VA will incur substantial costs associated with its treatment, the Department is encouraged to support research and development in diagnostic tests, including a less costly blood test and stool-based screening tests.

NATIONAL CEMETERY ADMINISTRATION

The agreement provides \$271,220,000 for the National Cemetery Administration (NCA). Of the amount provided, \$26,600,000 is available until September 30, 2017.

NCA Oversight Data.—NCA is instructed to provide the following performance data to the Committees on a quarterly basis: the percentage of graves marked within 60 days; the percentage of veterans served within 75 miles of residence; and the percentage of headstone and marker applications processed within 20 days of request. The report should also include the following workload measures, comparing planned versus actual for each: the number of interments; the number of graves maintained; and the applications processed.

DEPARTMENTAL ADMINISTRATION

GENERAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$336,659,000 for General Administration. Of the amount provided, \$10,000,000 is available for obligation until September 30, 2017. The agreement continues to include language permitting the transfer of funds from this account to General Operating Expenses, Veterans Benefits Administration.

The agreement includes the following funding levels:

(in thousands of dollars)

Office	2015	Agreement
Office of the Secretary	10,022	10,498
Office of General Counsel	80,243	92,178
Office of Management	44,052	44,535
Office of Human Resources and Administration	61,939	63,555
Office of Policy and Planning	24,990	24,743
Office of Operations, Security and Preparedness	17,884	18,907

(in thousands of dollars)

Office	2015	Agreement
Office of Public Affairs	20,253	21,026
Office of Intergovernmental Affairs	2,011	1,927
Office of Congressional and Legislative Affairs	5,962	5,962
Office of Acquisition, Logistics and Construction	53,789	53,328
Total	\$321,145	\$336,659

The agreement recognizes the particular importance of the mission of the Office of Accountability Review, the security and safety activities of the Office of Operations, Security, and Preparedness to protect VA facilities, and the National Veterans Sports Programs, and supports these programs at the budget request level.

Whistleblower Protection.—It is unacceptable that retaliation continues against whistleblowers within the Department. While VA continues to assert it is doing all within its power to protect whistleblowers and encourage VA employees to report cases of wrongdoing, there continue to be reports that in multiple cases when whistleblowers do bring problems to light, the whistleblowers themselves are attacked in official and unofficial ways. Such actions are reprehensible, and the Department is directed to send a clear and unequivocal message throughout the VA system that retaliation against whistleblowers will not stand, and that those in leadership who condone or ignore such retaliation will be held accountable. The Department is directed to ensure that all VA employees understand the rights and protections afforded to them under the law. Further direction on this topic is included in the Senate report.

Third Party Fee Collection.—The Committees have urged VA for several years to improve its systems for collection of third party payments that are owed to VA for non-service-connected care for veterans at both VA and non-VA facilities. With exponential increases in non-VA care, it is all the more important for VA to increase collections of payments it is rightfully owed. The Department is instructed to conduct a pilot similar to the one described in the Senate report. Emphasis should be placed on automated solutions, as recommended in the September Independent Assessment, but also on the use of private sector revenue cycle management techniques and small balance recovery and appeals processes. The pilot should test these approaches with claims resulting from both VA and non-VA facility care.

Financial Management Systems.—The Department has had an abysmal record over the past decade attempting to install a modern financial management system. After investing hundreds of millions of dollars, VA has pulled the plug on two different systems development efforts. Rather than trying to move forward with another modernization plan, VA has hobbled along with an antiquated system dating back to the 1980s. The consequences of this misjudgment became clear earlier this year when VA was unaware that medical care obligations were outstripping resources so fast that hospitals were in danger of closing in August. The Department has asserted that acquiring a modern financial system does not compete well against other IT requirements, and therefore, continues to fall low on the Department's priority list. After the accounting crisis the Department experienced this summer that explanation is inexcusable. VA is directed to make the development of a financial management system, whether acquired or created, a top priority for 2016.

Equitable Relief.—It is understood that VA is working to implement new systems and

protocols to eliminate instances of administrative error. However, as VA enacts system-wide reforms, ending equitable relief for veterans who were deemed eligible for benefits in error would place an unfair burden on veterans and their families. The Secretary is directed to continue to grant or extend equitable relief to eligible veterans initially deemed eligible in instances of administrative error. Not later than April 1, 2016, the Secretary shall submit to the Committees a report containing a statement as to the disposition of each case recommended to the Secretary for equitable relief under 38 U.S.C. 503 during the preceding calendar year.

Reduction in VA Use of Social Security Numbers.—There has long been concern about the overuse of Social Security numbers by VA as primary identifiers for veterans. To better understand the steps being taken by VA to reduce the use of Social Security numbers as the Department's primary identifier, the agreement directs the Secretary to submit not later than 120 days after enactment of this Act a comprehensive strategic plan to reduce the unnecessary use of Social Security numbers and VA's reliance on them.

Department Unresponsiveness.—The Department's lack of timely responses to congressionally directed reporting requirements is extremely frustrating and directly affects the ability of the Committees to conduct oversight. All too often the Department fails to meet the deadlines set forth by the Committees. As one example of this intransigence, a report requested in Title II of the fiscal year 2015 House Report 113-416 titled "Alternative Financing", which was due on September 30, 2014, has yet to be received by the Committees. In addition, there are currently 25 outstanding Committee reports the Department has failed to submit on time. Furthermore, even if the deadlines are met, the material provided by the Department often lacks substance and is of little use to the Committees. This frequently forces the Committees to act on incomplete information and to request the report again in subsequent Committee reports. The Secretary is urged to address this issue, extending the priority given to providing prompt and accurate services for veterans to other important partners in this effort.

Tribal Officer Certification.—The Department is urged to revise its current regulations to permit the certification of Tribal Veterans Service Officers in the same manner as State and Regional Veterans Officers.

VA Response to Oversight Reports.—The Department is directed, as indicated in the Senate report, to provide quarterly progress reports on VA's actions to address outstanding GAO findings and recommendations, with each report to be submitted not later than 30 days after the end of the quarter.

Quarterly Report.—In section 219 of the agreement, VA is directed to provide on a quarterly basis, not later than 30 days after the end of each quarter, a quarterly financial status report to include, at a minimum, the information identified in this paragraph. Such information shall include:

1. VHA obligations and collections for the three Medical Care accounts, Nonrecurring Maintenance [as a non-add], Medical Re-

search, the VA-DOD Facility Demonstration Fund, and MCCC collections—actual to date versus plan;

2. Updated 'VA Medical Care Obligations by Program' chart displayed in the fiscal year 2016 budget justification;

3. Choice Act obligations for sections 801 and 802—actual to date versus plan;

4. Hepatitis C obligations, amounts funded through appropriations versus Choice Act, both sources actual to date versus plan;

5. Cumulative tracking of each transfer within the Medical Care appropriations accounts and between all VA appropriations accounts;

6. General Administration obligations—personal services versus all other—actual to date versus plan;

7. Board of Veterans Appeals obligations—personal services versus all other—actual to date versus plan;

8. VBA, GOE obligations—personal services versus all other—actual to date versus plan;

9. Compensation and Pensions, Readjustment Benefits, and Veterans Insurance and Indemnities—obligations year-to-date versus plan;

10. NCA obligations—personal services versus all other—actual to date versus plan;

11. Information Technology Systems obligations—personal services versus all other—actual to date versus plan;

12. Major and Minor Construction obligations—actual to date versus plan;

13. Obligations to date for each Major Construction project, broken into design versus construction; and

14. Status of VA full-time equivalent employment—by Administration/IT and revolving funds—by quarter, actual versus plan.

Response to Security Threats.—Given the increasing threats of violence in the U.S., as well as worldwide, the VA Office of Security and Law Enforcement is directed to provide to the Committees not later than 90 days after enactment of this Act a report assessing the physical security at VA hospitals nationwide, with its recommendations to improve the safety of patients and staff who use these facilities. Among other issues, the report should assess how intelligent policing solutions could enhance the security of the hospital facilities.

Travel Restrictions.—While it is understood that VA is working to reduce costs associated with travel in an effort to perform more efficiently, the Secretary is directed to ensure that any reduction in travel does not impact clinical training or training in the field necessary to provide veterans with access to healthcare and benefits.

Gender-specific Data.—Last year, the Department was directed through the Women's Health Service and the Center for Women Veterans to begin to collect and analyze gender-specific data and to develop programs and funding recommendations based on this data. VA was also encouraged, in consultation with the DOD, to establish a women's working group within the VA/DOD Joint Executive Committee. The Department is directed to report to the Committees not later than 60 days after enactment of this Act on the status of these efforts.

BOARD OF VETERANS APPEALS

The agreement provides \$109,884,000 for the Board of Veterans Appeals, of which not to exceed \$10,788,000 shall remain available until September 30, 2017. Bill language is included in section 235 permitting VA to transfer funding between this account and the General Operating Expenses, Veterans Benefits Administration account if needed to align funding with the appropriate account to hire staff to address the appeals backlog.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides \$2,707,734,000 for General Operating Expenses, Veterans Benefits Administration and makes available not to exceed \$160,000,000 of this funding until the end of fiscal year 2017. The agreement provides funding to support the 770 additional full-time equivalent staff requested in the budget—200 new appeals processors, 320 non-rating claims processors, 85 fiduciary field examiners, and 165 support personnel. The full request for the Veterans Benefits Management System is provided in the agreement, which includes \$36,800,000 from this account and \$253,000,000 from the Information Technology Systems account. The agreement also includes the full budget request of \$26,300,000 for the centralized mail initiative and \$140,800,000 for the Veteran Claim Intake Program (VCIP).

Disability Claims Processing.—Members of Congress have been deeply concerned over the years as the backlog of veterans compensation claims for service-connected disabilities reached a peak, and hundreds of thousands of veterans waited months or years to receive their benefits. Using the resources Congress has provided, VA has chipped away at the backlog and is now on a course within months to clear the backlog. While encouraged by this progress, Congress will remain vigilant to ensure that VA has put the necessary processes and manpower in place to avoid slipping back into a backlog. In addition, the resolution of increasing numbers of claims has produced a significant increase in appeals of claims, which creates increased workload at both the regional offices and at the Board of Veterans Appeals. In expectation of this second wave of an appeals backlog, the agreement provides funding above the budget request for both the Veterans Benefits Administration and the Board of Veterans Appeals. The Department is instructed not later than 90 days after enactment of this Act to provide an integrated master plan for the appeals process modernization, including plans to ensure interoperability with the Veterans Benefits Management System.

To continue the oversight instituted by the Committees in response to the backlog, the agreement:

—Continues the requirement to provide rigorous, publicly available Web-based monthly reports to the Committees on performance measures for each regional office, including the number of backlogged claims, the average number of days to complete a claim, and error rates.

—Continues the requirement to submit quarterly reports that include the number of claims personnel in each regional office, corrective action taken to remedy any problems at poorly performing offices, training programs undertaken by regional offices, and quality review team audits performed during the quarter.

—Requires VA to submit a report not later than 90 days after enactment of this Act on current and future staffing levels for each regional office.

Military OneSource.—The Military OneSource program provides important services during service members' careers, offering information, referrals, non-medical counseling, specialty consultations, educational materials, and many other services and support worldwide 24 hours a day, seven days a week, at no cost to the user. Transition out of active service is a period of great flux for service members and their families, and Military OneSource is of great benefit to them during this turbulent time.

VA also provides extensive services for exiting service members through training, employment services, post-secondary education and health services. To be certain the services of the Military OneSource program and VA are not duplicative, the Secretary is directed, in consultation with the Secretary of Defense, to submit a report to the Committees not later than 120 days after enactment of this Act detailing the services provided by both programs and identifying areas where the Departments need to coordinate or reprioritize.

Fast Letter Guidance.—The Department issued Fast Letter 13–10, *Guidance on Date of Claim Issues*, on May 20, 2013, and subsequently terminated the guidance effective June 27, 2014. The Department is directed not to reissue such guidance during fiscal year 2016.

Post-9/11 GI Bill Overpayments.—The October, 2015 GAO report that identified over \$400,000,000 in post-9/11 GI bill overpayments—funding that must be collected from both students and higher education institutions—is of great concern to the Committees. VA is urged to adopt the recommendations that GAO identified, particularly updating the methods by which VA notifies students and institutions of debts owed (to include e-mail notification) and developing a system to identify students' enrollment status each month. VA is also encouraged to pursue the delayed disbursement system used by the Department of Education in order to reduce the amount of benefits that must be collected if a student's enrollment status changes. The Department is also encouraged to conduct targeted outreach and training to those schools with a record of repeated benefit processing errors, and to post on its website all of its policy directives, guidance, and training on processing student post-9/11 GI bill benefits. The Department is directed to report to the Committees not later than 90 days after enactment of this Act on its response to the GAO recommendations and its consideration of delayed disbursement.

Plan to Improve Vocational Rehabilitation and Education.—The Department is directed to develop and publish an action plan not later than 270 days after enactment of this Act regarding ways to improve services and assistance provided under chapter 31 of title 38, United States Code, as described in Senate bill section 260.

INFORMATION TECHNOLOGY SYSTEMS
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$4,133,363,000 for Information Technology (IT) Systems. The agreement identifies separately in bill language the funding available for pay (\$1,115,757,000); operations and maintenance (\$2,512,863,000); and systems development, modernization, and enhancement (\$504,743,000). The agreement makes \$34,800,000 of pay funding available until the end of fiscal year 2017; \$175,000,000 of operations and maintenance funding available until the end of fiscal year 2017; and all IT systems development, modernization and en-

hancement funding available until the end of fiscal year 2017.

The agreement includes \$182,600,000 for VistA Evolution, the modernization of the interoperable electronic health record (EHR); \$50,000,000 for interoperability and Virtual Lifetime Electronic Record (VLER) Health; \$253,000,000 in information technology funding for the Veterans Benefits Management System which processes disability claims; \$19,100,000 for the claims appeals modernization effort; \$15,000,000 for Section 508 compliance efforts; \$17,000,000 for the Medical Care Collection Fund Electronic Data Exchange for providers; and \$10,000,000 for the Electronic Data Exchange for payers.

As with the fiscal year 2013, 2014, and 2015 appropriations Acts, the fiscal year 2016 agreement includes a prohibition on obligation or expenditure of more than 25 percent of fiscal year 2016 funds provided for development, modernization, and enhancement of VistA EHR until the Department meets reporting and accountability requirements contained in the agreement.

The agreement includes language prohibiting the obligation of IT development, modernization, and enhancement funding until VA submits a certification of the amounts to be obligated, in part or in full, for each development project.

The agreement includes language permitting funding to be transferred among the three IT subaccounts, subject to approval from the Committees.

The agreement includes language providing that funding may be transferred among development projects or to new projects subject to the Committees' approval.

The agreement provides funding for IT development, modernization, and enhancement for the projects and in the amounts specified in the following table:

INFORMATION TECHNOLOGY DEVELOPMENT PROJECTS (in thousands of dollars)	
Project	Agreement
Access to Healthcare	\$28,970
Healthcare Efficiency IT Development	6,660
Electronic Health Record Interoperability/VLER Health ...	25,000
VistA Evolution	81,900
New Models of Care	25,430
Veterans Benefits Management System (VBMS)	86,000
Virtual Lifetime Electronic Record (VLER)	10,000
Veterans Relationship Management (VRM)	73,333
VHA Research IT Support Development	12,250
Other IT Systems Development	155,200
Total, All Development	\$504,743

This table is intended to serve as the Department's approved list of development projects; any requested changes are subject to reprogramming requirements.

Interoperability.—Within the VistA modernization plan, interoperability of electronic health records between DOD and VA remains a paramount concern. Although DOD's recently awarded EHR acquisition contract and VA's VistA Evolution program will result in two separate and distinct electronic health records, the Departments are directed to ensure that the two systems are interoperable with each other and with the necessary entities outside their own health systems. To this end, VA is directed to make progress in achieving the recommendations from the GAO Report (GAO–15–530) for establishing outcome-oriented metrics and goals to achieving interoperability with DOD.

Appointment Scheduling Software.—In 2014, now substantiated reports began to emerge of the long delays that many veterans faced when trying to schedule medical appointments. Rightfully, much of the focus over

the past year and a half has been on reforming the system to ensure that deliberate manipulation of wait time data is not tolerated and that better access is created for veterans seeking care. To that end, Congress passed VACAA, which among other things, provides funding for additional healthcare providers and infrastructure improvements, and made reforms to ensure accountability at the highest levels within VA. While these efforts are critical to reforming VA, it is noted that VA continues to struggle with modernizing its antiquated scheduling system. For more than a decade, VA has spent millions in an attempt to replace its current automated scheduling system, yet the Department has little to show for the effort. In several hearings over the past year and a half, testimony has been provided that highlights the critical need to develop and update the system, yet the Department has not provided a clear path forward with regard to this endeavor. In fact, it is disheartening that while wait times continue to plague VHA, the plan put forward to replace the system continues to change and decisions continue to be put off. Therefore, the agreement directs the Secretary to submit to the Committees not later than 30 days after enactment of this Act a report that clearly defines the plan of the Department to replace or modernize the legacy scheduling system, including the cost and schedule of the effort.

Expenditure Plan.—The agreement directs the Department to continue to provide an IT expenditure plan to the Committees not later than 30 days after enactment of this Act and on a monthly basis thereafter, as indicated in both the House and Senate reports. This plan should be in the same format as the table entitled “Information Technology Development Projects.”

Periodic Briefings.—The agreement requires VA to provide quarterly briefings to the Committees regarding schedule, milestones, obligations for VistA Evolution, and the six-month Project Management Accountability System delivery schedule, as directed in the Senate report. It also requires quarterly briefings from the DOD/VA Interagency Program Office on the EHR interoperability project and monthly updates to the Federal

Chief Information Officer of the United States, as directed in the Senate report.

Data Dictionary.—The agreement directs the two Departments to make rapid progress on the congressionally-mandated requirement to use a data dictionary (unless or until a national standard exists) and commit funds from available resources to support the implementation of such a system.

Information Technology Procurement.—Concerns remain over VA’s lack of response to previous expressions of interest and concern regarding the pending Transformation Twenty-One Total Technology Next Generation (T4NG) procurement vehicle. As Committee reports have previously stated, this contract is of critical importance to VA’s mission, especially as VA moves to implement new initiatives provided in VACAA. Therefore, VA is urged to increase the number of contract awards on T4NG to a minimum of 24, distributed equally between small and large vendors.

Personal Identity Verification (PIV) Cards.—The Department is encouraged to participate in the government-wide effort to enhance security, including cybersecurity, through increasing the use of PIV cards by its employees. Funding is available in the Information Technology Systems account for this effort.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$136,766,000 for the Office of Inspector General (OIG). Of the amount provided, not to exceed \$12,676,000 is available for obligation until September 30, 2017. The agreement includes section 239 which requires the OIG to provide work products to requesting Members and congressional committees and to post all final work products not later than three days after they are presented to the Secretary.

VA Antimicrobial Stewardship.—The OIG is directed to conduct a review not later than September 30, 2016, of efforts to implement Antimicrobial Stewardship Programs at VHA facilities, as described in the Senate report.

CONSTRUCTION, MAJOR PROJECTS

The agreement provides \$1,243,800,000 for Construction, Major Projects, which is \$100,000,000 above the budget request. The agreement makes this funding available for

five years, except that \$80,000,000 is made available until expended.

Outside Project Management.—To ensure the Department will never again mishandle public funds on a construction project in the manner and to the degree the Denver VA Medical Center in Aurora, CO, was mismanaged, the agreement directs that \$649,000,000 for Veterans Health Administration major construction projects shall not be available until the Department enters into an agreement with a non-Department of Veterans Affairs Federal entity to serve as the design and/or construction agent for each major construction project with a total estimated cost of \$100,000,000 or above. The agreement makes the funding available for obligation for each project only after VA certifies that the agreement with the non-Department Federal entity is in effect for that project. The seven VHA projects affected by the fencing provision are in Alameda, CA; American Lake, WA; Livermore, CA; Long Beach, CA; Louisville, KY; San Francisco, CA; and West Los Angeles, CA.

The requirement to contract with an outside agent for major construction projects was also mandated in Section 502 of the Department of Veterans Affairs Expiring Authorities Act of 2015 (Public Law 114-58), enacted on September 30, 2015. The law contemplates that the non-Department Federal entity will provide management over all or part of the project design, acquisition, construction, and appropriate contract changes, and the Department will reimburse the entity for all appropriate costs associated with the provision of such services. Given the timing of the fiscal year 2016 budget request, the Department did not have the opportunity to request the necessary resources to support these costs. Recognizing that the Department does not have the resources for the cost of an outside manager of its large projects, the agreement includes a line item of \$100,000,000 in order to make this expert outside oversight possible. For future budgets, VA is directed to establish a line item in the Major Construction account for such costs for all impacted projects.

The agreement funds the following items as requested in the budget submission:

Budget Justification Documents.—With the involvement of an outside non-VA government entity managing VA's large-scale construction projects, there is an opportunity to develop improved information for the Committees about future projects. To further enhance the ability to conduct proper oversight of VA's major construction efforts, the Department is instructed to include additional information in its future budget requests. The format for this information should be developed with the input of the future managing agent, but it should resemble the format of the DOD Form 1391 and include all information from that form that is relevant to a VA project. Among the budget items that should be included are: total cost and a detailed description of any incremental funding or phasing of the project, including any severability; complete schedule of budget authority already received and needed in future years; detailed justification for any change between the prior year and current budget submission for the project; description of design versus construction costs for the project and identification of primary facility versus supporting facilities in the project; and the schedule for start of design, the point at which the design is 35 percent complete, the date that design is fully complete, and the date for start of construction.

Defense Health Agency Construction.—The Defense Health Agency (DHA) employs a comprehensive approach to hospital construction, working closely with the military services and monitoring the process as military hospitals are planned, built, maintained, and replaced. Military hospital construction projects are managed by the United States Army Corps of Engineers (USACE) or the Naval Facilities Engineering Command (NAVFAC), both of which have extensive experience and expertise in managing large construction projects. DHA consults with USACE and NAVFAC throughout the planning, design, and construction phases of a project to help manage project execution and change orders. Notably, DHA also accepts input from clinicians early on in the design process, but maintains control of the project after that point, which serves as a limiting factor on costly and time-consuming change orders. The close coordination among DHA, USACE, and NAVFAC enables DHA to more efficiently manage the design and construction of large-scale medical facilities, while containing cost and schedule overruns. Given the massive cost overruns and lengthy delays in recent VA hospital construction projects, the Department is directed to consult with DHA on best practices in hospital design and construction. Further, VA is directed to submit a report to the Committees not later than 180 days after enactment of this Act regarding steps taken to fulfill this directive.

Alternative Sources of Construction Funding.—For two years, the Committees have directed VA to work collaboratively with other executive branch agencies that have substantial construction portfolios, private sector contractors, and other non-governmental experts to explore the feasibility of new funding mechanisms for VA construction, such as private development leasebacks, and report to the Committees on these alternative mechanisms. The executive branch clearance process has apparently prevented the submission of this report. Therefore, the Department is directed to provide directly to the Committees not later than 10 days after enactment of this Act the draft report submitted to the Office of Management and Budget.

Medical Facilities Realignment.—Concern remains that VA medical care realignments are being approached in an ad hoc manner by each individual VISN rather than on a comprehensive basis by VA Central Office. Moreover, such an approach may lead to inequitable and inefficient distribution of medical resources throughout the nation. Before VA makes any decision to relocate, close, or diminish services at an existing facility, or proceeds with any such realignment already underway, consideration must be given to the impact such action would have on veterans, especially tribal veterans or veterans in rural or highly rural areas, Post-traumatic Stress Disorder Treatment Programs, and other Residential Rehabilitation Treatment Programs. VA must adhere to a clear and transparent process that engages all parties from the onset and is consistent with a national realignment strategy. In title II of division I of the Consolidated and Further Continuing Appropriations Act, 2015 (P.L. 113-235), the Committees suspended the proposed realignment of services in VISN 23 until such a report with a national strategy was transmitted to the Committees. To date, that report has not been received. The Department is again directed to comply with the request for the report on the VISN 23 proposed realignment.

CONSTRUCTION, MINOR PROJECTS

The agreement provides \$406,200,000 for Construction, Minor Projects. The agreement makes this funding available for five years.

Expenditure Plan.—The agreement includes the directive for the Department to provide an expenditure plan not later than 30 days after enactment of this Act, as provided in the Senate report. This expenditure plan shall include a complete list of minor construction projects to be supported in fiscal year 2016. The plan shall be updated six months and twelve months after enactment.

Mobile Surgical Units.—The Department is directed to launch a pilot project to test the cost efficiency of leasing or purchasing mobile surgical units, as described in the Senate report.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The agreement provides \$120,000,000 for Grants for Construction of State Extended Care Facilities, to remain available until expended. In addition, section 211 permits the transfer of up to \$20,000,000 from Medical Services to this account for the purposes described in the Senate report.

The Department is urged to calculate the maximum bed numbers necessary to support peak veteran populations and develop contingency plans to address spikes and declines over the next ten years. The Department is also directed to keep the Committees apprised of its timeline to revise the regulation setting the maximum bed number for State homes in each State. The Office of Rural Health is directed to partner with State agencies to study the need for long-term care for veterans in rural or highly rural areas.

GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

The agreement provides \$46,000,000 for Grants for Construction of Veterans Cemeteries, to remain available until expended.

TITLE III

RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION SALARIES AND EXPENSES

The agreement includes \$105,100,000 for Salaries and Expenses of the American Battle Monuments Commission (ABMC). The agreement provides an additional \$30,000,000 above the budget request to support large, planned projects such as the Manila Visitor Center, significant repairs and refurbishing at the Normandy American Cemetery and other locations, and interpretive work supporting the World War I centennial. In addition, the funds are to be used to provide ABMC sites with adequate and appropriate security, in-

cluding, but not limited to, safe havens, gates, lighting, and closed-circuit cameras with remote access. Such projects should be subject to a risk-based analysis, and meet or exceed the requirements set by the Regional Security Office in each country. The funds provided over the budget request are not intended for regular operations and maintenance needs. Not later than 30 days after the date of enactment of this Act, the Secretary shall submit a spend plan detailing the use of these funds to the Committees.

FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

The agreement includes such sums as necessary, estimated at \$2,000,000, for the Foreign Currency Fluctuations Account.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

The agreement includes \$32,141,000 for Salaries and Expenses for the United States Court of Appeals for Veterans Claims, as requested.

DEPARTMENT OF DEFENSE—CIVIL CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

The agreement provides \$79,516,000 for Salaries and Expenses, including an additional \$8,716,000 over the request to address deferred maintenance and infrastructure repairs at Arlington National Cemetery. Not later than 30 days after the date of enactment of this Act, the Executive Director shall submit a spend plan detailing the use of these funds to the Committees.

ARMED FORCES RETIREMENT HOME TRUST FUND

The agreement includes \$64,300,000 for the Armed Forces Retirement Home (AFRH). The Trust Fund was established to support the operations and expenses of the AFRH, and is replenished from a variety of sources, including fines and forfeitures and Active Duty Withholding. However, the largest source of funds, which is derived from fines and forfeitures, is diminishing. Annual outlays for the Fund have exceeded revenues since 2011, and in November 2015 DOD informed the Committees that, counter to the assumptions in the fiscal year 2016 budget request, the Trust Fund balances are not sufficient to support the expenses of AFRH; therefore, the Fund was projected to be insolvent by April 2016. As an emergency measure to assure solvency for AFRH, the agreement directs that, of the \$64,300,000 total, \$44,300,000 is to be derived from the Trust Fund and \$20,000,000 provided from the General Fund. However, the use of the General Fund is a not a long-term solution, and AFRH is directed to work with DOD to develop an approach that will replenish the Trust Fund in a sustainable, reliable manner and to present that approach to the Committees in the fiscal year 2017 budget request along with legislative proposals. In addition, AFRH is directed to regularly report to the Committees on efforts to stabilize the Trust Fund and to lease property at the Washington, D.C. facility.

AFRH Operations Improvements.—With the removal of the Administrator and the Chief of Healthcare Services at the Armed Forces Retirement Home in Gulfport, Mississippi (AFRH-G), it is expected replacements for these positions will be chosen thoughtfully and expeditiously, and the Committees will continue to monitor DOD's actions to remedy the problems that led to the removal of these individuals. Therefore, the Chief Operating Officer of the AFRH is directed to submit to the Committees not later than 90 days

after enactment of this Act a report detailing the improvements made to AFRH-G operations to address these problems, to include, but not be limited to, actions taken to enhance healthcare staffing at the facility through improved human resources management and staff performance oversight.

ADMINISTRATIVE PROVISIONS

The agreement includes section 301 permitting funds to be provided to Arlington County, Virginia, for the relocation of a water main located on the Arlington National Cemetery property.

The agreement includes section 302 allowing Arlington National Cemetery to deposit and use funds derived from concessions.

The agreement does not include House Title IV, Overseas Contingency Operations. Funding for those projects is included in Title I.

TITLE IV

The agreement includes section 402 prohibiting the use of the funds in this Act for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

The agreement includes section 403 encouraging all Departments to expand their use of “E-Commerce.”

The agreement includes section 404 specifying the congressional committees that are to receive all reports and notifications.

work blocks the viewing, downloading, and exchanging of pornography, except for law enforcement investigation, prosecution, or adjudication activities.

The agreement includes section 409 prohibiting the use of funds for the payment of first-class travel by an employee of the executive branch.

The agreement includes section 410 prohibiting the use of funds in this Act for any contract where the contractor has not complied with E-Verify requirements.

The agreement includes section 411 prohibiting the use of funds in this Act by the Department of Defense or the Department of Veterans Affairs for the purchase or lease of a new vehicle except in accordance with Presidential Memorandum—Federal Fleet Performance, dated May 24, 2011.

DIVISION K—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2016

In implementing this agreement, Federal departments, agencies, commissions, and other entities are directed to comply with the directives, reporting requirements, and instructions contained in H. Rept. 114-154 (House report) accompanying H.R. 2772 (House bill) and S. Rept. 114-79 (Senate report) accompanying S. 1725 (Senate bill) as though stated in this explanatory statement, unless specifically directed to the contrary. This explanatory statement, while repeating some House and Senate report language for emphasis or clarification, does not negate such language unless expressly provided herein. In cases in which the House and Senate reports provide contradictory directives or instructions that are not addressed in this explanatory statement, such directives or instructions are negated. In lieu of the tables contained in the House and Senate reports, the tables contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds.

The Act modifies section 7019 of the House and Senate bills and requires that amounts designated in the respective tables referenced in this explanatory statement for funds appropriated in titles III through V shall be made available in such designated amounts and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 (FAA) (the 653(a) report), where applicable. Section 7019 also includes limited authority to deviate from such specified amounts. In addition, the Act modifies section 7015 of the House and Senate bills to clarify reprogramming and notification requirements for funds made available by this Act. Proposed deviations from tables in title I of this explanatory statement are subject to section 7015.

For the purposes of this Act, the term “regular notification procedures of the Committees on Appropriations” shall mean such Committees must be notified not less than 15 days in advance of the initial obligation of funds, and the term “reporting procedures of the Committees on Appropriations” shall mean a report must be provided to such Committees not more than 90 days after the conclusion of fiscal year 2016.

especially to those without current access to electricity, as well as to support increased exports from the United States and prevent the loss of United States jobs.

The following general provisions are new or substantively modified from the fiscal year 2015 Act (division J of Public Law 113-235):

Sec. 7004. Diplomatic Facilities (Modified)

The Act does not include the limitation and reporting requirement regarding the relocation project for the United States Embassy to the Holy See that was included in the House bill. The project met the conditions in prior Acts and was completed at the end of fiscal year 2015. Not later than 45 days after enactment of this Act, the Secretary of State is directed to submit to the Committees on Appropriations a final report on the project, including the cost, security improvements, and current staffing levels.

Sec. 7006. Local Guard Contracts (Modified)

The Act modifies the expanded one-year authority in the Senate bill to require notification of the appropriate congressional committees each time the Secretary of State exercises the authority for a United States diplomatic facility not deemed high threat and high risk. The notification required by this section shall include a justification for covered awards, an explanation of why the use of Lowest Price Technically Acceptable (LPTA) basis award is not appropriate, and an estimated cost comparison between awarding such contract on a best value basis as determined by a cost-technical tradeoff analysis instead of on the basis of LPTA.

*Sec. 7009. Transfer Authority (Modified)**Sec. 7015. Notification Requirements (Modified)*

The Act modifies subsection (a) to require notification when specified changes occur in programs, projects, and activities. Paragraph (4) applies to domestic and overseas bureaus, centers, and offices, and paragraph (5) is not intended to require a notification for duties performed by personal services contractors. The term “previously notified” includes changes that have been specifically noted in a CBJ.

Subsection (b) is modified to require notification of any reprogramming of funds that results from changes specified in this subsection.

Subsection (c) is modified by deleting the reference to Conflict Stabilization Operations, which is subject to the notification requirements in subsection (a) and (b), and by including Assistance for Europe, Eurasia and Central Asia.

Sec. 7019. Allocations (Modified)

The agreement modifies language in section 7019 of the House and Senate bills. Amounts specifically designated in tables in this explanatory statement for funds appropriated in titles III through V that are applicable to the 653(a) report shall be included in such report. The revised section 7019 also provides that funds appropriated in the Act under titles III through V shall be made available to meet specifically designated amounts in such tables and may only be deviated from by 5 percent. Deviations from specifically designated amounts in excess of 5 percent are only authorized for specific circumstances enumerated in the Act and are subject to prior consultation and notification.

For specifically designated amounts in tables that are also included in the 653(a) report, any deviation from such specifically designated amounts are not authorized until submission of such report. For example, a specifically designated amount of \$4,500,000

in the Economic Support Fund table in this explanatory statement for assistance for a country must be contained in the 653(a) report. However, after submission of such report, a deviation of up to 5 percent from \$4,500,000 is authorized. For a specifically designated amount, such as \$7,000,000 for a program in the Development Assistance table, which would not be reflected in the 653(a) report, deviations authorized by subsection (b) may take place prior to submission of such report. Nothing in the revised section 7019 may be construed to authorize a deviation from a designated funding level in the Act containing a “shall”.

This subsection excludes NED and its core institutes.

The development of such guidelines is intended to assist democracy officers worldwide with designing programs that properly reflect the objectives of democracy programs and the purposes to be achieved, as well as assist contracting and agreement officers in selecting the most appropriate mechanism for democracy programs, consistent with sections 6303 through 6305 of title 31, United States Code. In preparing such guidelines, the Department of State and USAID should consider the roles and responsibilities of each agency in promoting democracy abroad, in accordance with the explanatory statement accompanying division J of Public Law 113–235.

Sec. 7076. Budget Documents (Modified)

The Act modifies subsection (a) to clarify that certain funding level changes to programs, projects, and activities that are included in operating plans are subject to notification requirements.

The regional security initiatives to be addressed in the spend plans required by subsection (b)(1)(B) shall include: the Caribbean Basin Security Initiative; the Central America Regional Security Initiative; the Trans-Sahara Counterterrorism Partnership; the Partnership for Regional East Africa Counterterrorism; the West Africa Regional Security Initiative; the Global Peace Operations Initiative, including Africa Contingency Operations Training and Assistance; the African Peacekeeping Rapid Response Partnership; the Africa Conflict Stabilization and Border Security program; the African Military Education Program; the Africa Maritime Security Initiative; the Security Governance Initiative; the Africa Regional Counter-Terrorism Fund; the Counterterrorism Partnerships Fund; the Regional Security Initiative; the Africa Capacity for Immediate Response to Crisis; and the Southeast Asia Maritime Security Law Enforcement Initiative.

Sec. 7077. Reports and Records Management (New)

The Act does not include language in the Senate bill regarding the termination of reports. The Department of State and USAID are directed to provide a list of obsolete reports proposed to be terminated during fiscal year 2017, and such list should be limited to reports under the jurisdiction of the Subcommittee on State, Foreign Operations, and Related Programs or reports required by prior appropriations Acts.

Subsection (c)(1)(A) is not intended to prohibit the funding of Department of State or USAID cloud server capabilities.

The GAO shall submit the completed assessment required under subsection (c)(3) to the Secretary of State, the USAID Administrator, and the Committees on Appropriations.

Sec. 7078. Global Internet Freedom (Modified)

The Secretary of State should prioritize Internet freedom programs that seek to counter restrictive Internet laws and policies, including working with local civil society organizations to support policies to promote Internet freedom, in countries with governments that have adopted, or are considering, laws or policies that restrict Internet access and content.

Funds in the Act for Internet freedom programs are allocated according to the following table:

INTERNET FREEDOM	
(Budget authority in thousands of dollars)	
Account	Budget Authority
Democracy Fund (Department of State)	13,000
Economic Support Fund	14,275
<i>Near East Regional Democracy</i>	<i>[9,000]</i>
Assistance for Europe, Eurasia and Central Asia	4,725
Democracy Fund (USAID)	3,500
International Broadcasting Operations	15,000
Total, Internet Freedom	50,500

Sec. 7081. Country Focus and Selectivity (New)

The Act includes language modified from the Senate bill regarding country focus and selectivity. The intent of this provision is to decrease country dependency on United States foreign assistance and to encourage self-sufficiency through programs to strengthen economic development, security, and stability. However, bilateral and security assistance to certain countries serve abiding strategic purposes, and a transition plan for such a country should acknowledge this interest.

Subsection (a) requires a transition plan in any country assistance strategy developed after the date of enactment of this Act, and such plan should identify end goals and options for winding down bilateral economic and security assistance. The Secretary of State, in consultation with the USAID Administrator, is directed to develop and distribute guidelines to appropriate personnel for implementation of this subsection.

The Secretary is directed to consult with the Committees on Appropriations prior to initiating a targeted transition on the country selection process, the proposed period of transition, and the percentage reduction in new obligations.

Sec. 7082. United Nations Population Fund (Modified)

The Act does not include the following general provisions from the fiscal year 2015 Act (division J of Public Law 113–235), which have been discontinued or combined with other sections: sections 7010, 7056, 7061, 7064, 7065, 7072, 7080, 7083, 7084, 7085.

DIVISION L—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

CONGRESSIONAL DIRECTIVES

The language and allocations set forth in the House report (House Report 114-129) and the Senate report (Senate Report 114-75) should be complied with unless specifically addressed to the contrary in this division or explanatory statement. Report language included by the House, which is not changed by this explanatory statement, and the Senate report language, which is not changed by this explanatory statement, is a result of the 2016 appropriations agreement. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The Department of Transportation and the Department of Housing and Urban Development are directed to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program or authority. Any reprogramming requests must be submitted to the House and Senate Committees on Appropriations no later than June 30, 2016.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY SALARIES AND EXPENSES

The agreement provides \$108,750,000 for the salaries and expenses of the Office of the Secretary. The agreement includes funding by office as specified below, and offices are to manage staffing levels within the amounts provided. Funds are available for transfer between all offices under certain conditions.

Immediate Office of the Secretary	\$2,734,000
Immediate Office of the Deputy Secretary	1,025,000
Office of the General Counsel	20,609,000
Office of the Under Secretary for Transportation Policy	9,941,000
Office of the Assistant Secretary for Budget and Programs	13,697,000
Office of the Assistant Secretary for Government Affairs	2,546,000
Office of the Assistant Secretary for Administration	25,925,000
Office of the Assistant Secretary for Public Affairs	2,029,000
Office of the Executive Secretariat	1,737,000
Office of Small and Disadvantaged Business Utilization	1,434,000
Office of Intelligence, Security, and Emergency Response ...	10,793,000
Office of the Chief Information Officer	16,280,000

Comprehensive truck size and weight limits study.—The agreement includes a provision that requires the Secretary to transmit to Congress the final Comprehensive Truck Size and Weight Limits Study, as mandated by MAP-21, within 60 days of enactment of this Act. The Department of Transportation released a Technical Report in June which ex-

amined six alternate truck configurations. The Transportation Research Board (TRB) has acknowledged that the Department's efforts to conduct the study are hampered by data limitations; however, according to the TRB peer-review committee, the technical report lacks a consistent and complete quantitative summary of the evaluations of the alternative configuration scenarios and presents impact estimates using inconsistent units of measure which prevents the reader from weighing costs, benefits, and trade-offs. The TRB committee notes possible instances of bias, assumptions, and possible misinterpretation of data in the report. The Committees view the Technical Report, particularly the Department's misrepresentation of the data limitations, as an unsatisfactory document that makes no progress on meeting the Department's responsibilities under the MAP-21 mandate.

RESEARCH AND TECHNOLOGY

The agreement provides \$13,000,000 for the Office of the Assistant Secretary for Research and Technology.

NATIONAL INFRASTRUCTURE INVESTMENTS

The agreement provides \$500,000,000 for capital investments in surface transportation infrastructure, commonly known as the "TIGER" program. Funds are available for highway and bridge projects; transit projects; passenger and freight rail projects; and port, inland port, and land ports of entry projects. The Secretary is reminded to consider worthy transportation projects in suburban areas when meeting geographical requirements. The agreement does not include funds for planning activities.

FINANCIAL MANAGEMENT CAPITAL

The agreement provides \$5,000,000 for the financial management capital program.

CYBER SECURITY INITIATIVES

The agreement provides \$8,000,000 for departmental cyber security initiatives.

OFFICE OF CIVIL RIGHTS

The agreement provides \$9,678,000 for the Office of Civil Rights.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

The agreement provides \$8,500,000 for planning, research and development activities, of which \$2,500,000 is for the establishment of an Interagency Infrastructure Permitting Improvement Center (IIPIC). Bill language is included to allow for the transfer of funds to this account from other Federal agencies utilizing the services of the IIPIC.

WORKING CAPITAL FUND

The agreement limits expenditures for working capital fund activities to \$190,039,000.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The agreement provides a total appropriation of \$933,000 for the minority business cen-

ter program: \$336,000 for the cost of guaranteed loans and \$597,000 for the administrative expenses of the program. The bill limits loans to \$18,367,000.

MINORITY BUSINESS OUTREACH

The agreement provides \$3,084,000 for minority business outreach.

PAYMENTS TO AIR CARRIERS

(AIRPORT AND AIRWAY TRUST FUND)

The agreement provides \$175,000,000 for payments to air carriers. In addition to these funds, the program will receive approximately \$108,000,000 in overflight fees pursuant to the FAA Modernization and Reform Act of 2012.

The agreement includes a provision that allows amounts authorized for the essential air service program to be immediately available from resources of the Federal Aviation Administration and allows such resources to be reimbursed from collected overflight fees.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 prohibits funds available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations, except for activities underway on the date of enactment of his Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Department of Transportation Working Capital Fund to provide payments in advance to vendors for the Federal transit pass fringe benefit program.

Section 103 requires the Secretary of Transportation to post on the Web a schedule of all Credit Council meetings, agendas, and meeting minutes.

Section 104 allows the Department of Transportation Working Capital Fund to provide full or partial payments in advance and accept reimbursements from Federal agencies for transit benefit distribution services.

FEDERAL AVIATION ADMINISTRATION OPERATIONS

(AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$9,909,724,000 for the operations of the Federal Aviation Administration (FAA). Of the total amount provided, \$7,922,000,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

The following table compares the agreement to the levels proposed in the budget request by activity:

	Budget Request	Agreement
Air Traffic Organization	\$7,505,293,000	\$7,505,293,000
Aviation Safety	1,258,411,000	1,258,411,000
Commercial Space Transportation	18,144,000	17,800,000
Finance and management	764,621,000	760,500,000
NextGen and operations planning	60,582,000	60,089,000
Staff offices	207,099,000	206,751,000
Security and Hazardous Materials Safety	100,880,000	100,880,000
Total	\$9,915,000,000	\$9,909,724,000

Operations funding.—The agreement includes the full budget request for the air traffic organization, aviation safety, and security and hazardous materials safety. The agreement includes reductions of less than two percent from commercial space activi-

ties, and less than one percent from finance and management, NextGen planning, and staff offices. These reductions are taken without prejudice. The agreement funds overall FAA operations at 99.95 percent of the budget request to ensure the highest pos-

sible level of air traffic services, for both general and commercial aviation. The agreement also fully supports FAA's efforts to hire over 1,500 controllers in fiscal year 2016, and the FAA is directed to make the investments necessary to enhance its controller

hiring capabilities to meet its fiscal year 2016 hiring goals.

Contract towers.—The agreement provides \$154,400,000 for the contract tower program.

Aviation noise impacts.—During floor consideration of H.R. 2577, a variety of amendments were offered in both chambers related to FAA air traffic procedures and, in particular, the noise that those procedures create in neighborhood communities. FAA must take a more proactive role in engaging communities that are impacted by these new departure and arrival procedures, especially when the agency chooses to utilize a categorical exclusion as part of the environmental review process. The agreement does not include provisions related to specific communities, but rather includes broad language requiring FAA to update its community involvement manual and implementation plan. Improved community outreach is one part of the solution. Investments in new technologies that will reduce noise and other en-

vironmental impacts caused by aircraft are equally important. In that regard, the agreement continues to include robust funding for the Continuous Lower Energy, Emissions and Noise (CLEEN) program.

Organization delegation authorization.—The FAA is directed to continue its efforts to more fully utilize organization designation authorization (ODA) for aircraft certification processes, while improving ODA risk-based oversight and workforce training. FAA is directed to provide a progress report on its improvements to ODA processes no later than 180 days after enactment.

Pathfinder program/commercial airports.—The agreement supports FAA's Pathfinder program and encourages the FAA to expand the program to include a commercial airport, in conjunction with the UAS center for excellence as evaluator. A letter report is requested on findings related to such expansion no later than 180 days after enactment.

Pathfinder program/electric utilities.—The agreement encourages FAA to consider including electric utility companies in the Pathfinder program to increase the understanding of the role unmanned aerial systems can play in supporting disaster recovery and ensuring the resiliency of the electric grid.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$2,855,000,000 for FAA facilities and equipment. Of the total amount available, \$470,049,000 is available until September 30, 2016 and \$2,384,951,000 is available until September 30, 2018. The agreement includes language directing FAA to transmit a five-year capital investment plan to Congress no later than March 31, 2016, and reduces funding by \$100,000 for each day the capital investment plan is late.

The following table provides a breakdown of the agreement by program:
